The GUIDE Benefit: Comprehensive Support for People with Dementia and Their Caregivers

The GUIDE (Guiding an Improved Dementia Experience) program supports individuals with dementia and their caregivers through comprehensive, no-cost assistance from the Center for Medicare and Medicaid Innovation.

Key Benefits of the GUIDE Program:

- No Cost: Absolutely free for participants.
- No Changes to Current Care: The GUIDE benefit is provided in addition to all other benefits. It does not affect or limit your current doctors or current or future care.
- Flexible Respite Options: GUIDE provides up to 72 hours of free respite care annually for caregivers to get a break when they need it, with care for their loved ones at home, in a facility, or a day program.
- Seamless Care Coordination: Expert assistance in navigating community resources.
- Dedicated Care Navigator: An experienced, trained professional to help coordinate and ease your care responsibilities.
- Caregiver Support and Training: Access education and resources to enhance your caregiving skills and prepare for the future. Access to a 24/7 support line.
- Broad Eligibility: All people with dementia who are covered by **Traditional Medicare** (not Medicare Advantage) are eligible. Participants may reside at home or in independent living, assisted living, or memory care and may not be enrolled in hospice.

The GUIDE program is here to help lighten the burden of dementia care, providing essential support and practical solutions for families navigating this challenging journey.
